WHO AM I

Self motivated Software Developer dedicated in building high performance and secure Apps. Efficient solver of complex problems, working mostly with Back-End technologies. Well-organized and effective learner, currently working to improve my Front-End skills.

EDUCATION

University of Piraeus, (2016-2021)

DEPARTMENT OF INFORMATICS

Direction: Software Engineering and Intelligent Systems

EXPERIENCE

- Built a CMS for my project Touring-by, as part of my thesis. App built with Laravel, Bootstrap 4 and JS, in responsive design and deployed on Heroku.
- Built an android app for my project Touring-by, as part of my thesis. The app built with Flutter and Dart, designed with MVVM pattern.
- Built a Laravel app that helps kids to learn the multiplication table as part of university course assignment.
- Built various of Python task automation projects with openpyxl, selenium, tkinter, and other packages.

SKILLS

Technical

LARAVEL	●●●○
HTML, CSS	●●○○
JAVASCRIPT	●●○○
REACT	●○○○
BOOTSTRAP 4	●●○○
GIT	●●○○
SQL	●●○○
PHP	●●○○
PYTHON	●●○○

Personal

TEAMWORK

- Adaptability
- Organization

Self-Learning taught me

- To read the manual first
- To ask the right questions (search field or person)
