WHO AM I

Self motivated Software Developer dedicated in building high performance and secure Apps. Efficient solver of complex problems, working with Back-End and Front-End technologies. Well-organized and effective learner, currently working on building web apps with Laravel.

EXPERIENCE

- Developed and maintained multiple Laravel applications, including large-scale online marketplace projects as part of an international team.
- Specialized in queues, Filament admin dashboards, TALL stack (Tailwind, Alpine.js, Laravel Livewire, Laravel), and integrating with external APIs and services.
- Built responsive, accessible, and user-friendly interfaces using HTML, CSS, JS, and modern front-end tools.
- Worked with Drupal 8-10 on multiple projects, including e-commerce and journal websites. Gained deep understanding of CMS architecture, web development best practices, and scalable solutions.
- Implemented automation scripts in Python using OpenPyXL, Selenium, Tkinter, and other packages to streamline repetitive tasks.

EDUCATION

University of Piraeus, (2016-2021)

DEPARTMENT OF INFORMATICS

Direction: Software Engineering and Intelligent Systems

SKILLS

Technical

LARAVEL	●●●●●●
DRUPAL	●●●●●○
PHP	●●●●●●
SQL	●●●●●○
GIT	●●●●●○
HTML, CSS	●●●●●●
JAVASCRIPT	●●●●●○
TAILWIND, BS	●●●●●○
PYTHON	●●●●○●

Personal

Teamwork

- Adaptability
- Organization

Self-Learning taught me

- To read the manual first
- To ask the right questions (prompt or person)
